Section 1 – Prompt

Create a one-page professional resume based on the following details:

Name: Darielle Oli
Email: darielleoli04@email.com
Phone: 0911-928-64582

Objective:
Motivated Civil Engineering student seeking an entry-level opportunity to apply technical, analytical, and problem-solving skills in engineering projects, surveying, and fieldwork.

Education:
Bachelor of Science in Civil Engineering
Ateneo de Davao University, Davao City
Expected Graduation: 2027

Skills:
AutoCAD, Microsoft Excel, Data Analysis, Surveying Techniques, Problem Solving

Projects & Experience:
Route Surveying Laboratory Project

* Conducted field measurements and data collection for route alignment
* Analyzed survey data for accuracy and reliability

Curve Design Project

* Applied compound curve computations using the chord deflection method
* Designed accurate curve layouts based on engineering standards

Achievements:
SO2
Dean's Lister (2024)

Formatting Instructions:

* Use a clean, modern, and professional resume layout

* Include clear section headings
* Use bullet points where appropriate
* Keep the content concise and limited to one page
* Ensure strong action verbs and professional tone throughout
* Make it suitable for entry-level job applications

Section 2 – LLM Outputs

LLM 1 - Gemini

Darielle Oli

Phone: 0919-286-4582 | **Email:** darielleoli04@email.com
Location: Davao City, Philippines

OBJECTIVE

Motivated Civil Engineering student seeking an entry-level opportunity to apply technical, analytical, and problem-solving skills in engineering projects, surveying, and fieldwork. Dedicated to contributing to project success through precision and a strong foundation in engineering principles.

EDUCATION

Bachelor of Science in Civil Engineering *Ateneo de Davao University, Davao City* **Expected Graduation:** 2027

TECHNICAL SKILLS

- **Design & Drafting:** AutoCAD
- **Data Management:** Microsoft Excel, Data Analysis
- **Fieldwork:** Surveying Techniques, Field Measurements
- **Core Competencies:** Compound Curve Computation, Route Alignment, Problem Solving

---

PROJECTS & EXPERIENCE

Route Surveying Laboratory Project

- **Conducted** comprehensive field measurements and data collection for strategic route alignment.
- **Analyzed** survey data to ensure high levels of accuracy and reliability for engineering reports.

- **Collaborated** with team members to streamline data entry and topographical mapping.

Curve Design Project

- **Applied** compound curve computations using the chord deflection method to meet specific project constraints.
- **Designed** accurate curve layouts in accordance with rigorous engineering standards and safety codes.
- **Validated** mathematical models against field requirements to ensure seamless implementation.

ACHIEVEMENTS & CERTIFICATIONS

- **Dean's Lister** | Ateneo de Davao University (2024)
- **Safety Officer 2 (SO2)** | Certified in Basic Occupational Safety and Health
- **Academic Excellence** | Consistent performance in core Engineering Mathematics and Surveying courses

---

REFERENCES

Available upon request.

LLM 2 - Claude

DARIELLE OLI

Civil Engineering Student • Ateneo de Davao University

0919-286-4582 | darielleoli04@email.com | Davao City, Philippines

OBJECTIVE

Motivated Civil Engineering student seeking an entry-level opportunity to apply technical, analytical, and problem-solving skills in engineering projects, surveying, and fieldwork.

EDUCATION

Bachelor of Science in Civil Engineering *Expected Graduation: 2027*
Ateneo de Davao University — Davao City, Philippines

SKILLS

AutoCAD · Microsoft Excel · Data Analysis · Surveying Techniques · Problem Solving

PROJECTS & EXPERIENCE

Route Surveying Laboratory Project

- Conducted field measurements and data collection for route alignment
- Analyzed survey data for accuracy and reliability

Curve Design Project

- Applied compound curve computations using the chord deflection method
- Designed accurate curve layouts based on engineering standards

ACHIEVEMENTS

Dean's Lister (2024) — *SO2*
Ateneo de Davao University, Davao City

Section 3 - Comparison Table

Criteria	LLM #1	LLM #2
Structure	Well-organized with clear sections but slightly formulaic.	More refined structure with smoother flow between sections.
Clarity	Clear and informative, though sometimes slightly repetitive.	Very clear, concise, and naturally written with better phrasing.
Formatting	Clean and readable but somewhat standard/basic.	More polished and visually balanced with better spacing and layout.
Overall Quality	Strong and complete output, suitable for basic professional use.	Highly polished, professional, and closer to real-world resume standards.

Section 4 – Reflection (200–300 words)

In comparison to LLM #1, namely Gemini, LLM #2, namely Claude, was more effective and efficient. Claude delivered an output of high quality, containing information in a clear manner that was concise, coherent, and professionally presented. It was also formatted in the way that is similar to a resume one would create for themselves. On the other hand, Gemini also delivered an output of high quality; however, its wording was somewhat general and repetitive in some cases. The key differences between the outputs were mostly related to the differences in tone, formatting, and quality. Despite the similarities, Claude delivered a higher quality output because of its clarity and conciseness.

When making the final version of the resume, several things were considered, using the positive elements from both versions. For example, the final version incorporated the structured nature of Gemini while using the better choice of words from Claude. Other considerations included ensuring consistent formatting and having a neat one-page resume. Therefore, one of the lessons learned from the entire process is that the prompt plays an important role in generating AI output. When the prompt is clear, the generated content will be accurate. Additionally, it is important to note that different LLMs use the prompt differently to create their unique versions. Thus, it is always important to compare the generated output to refine it further.

Section 5 – Final Resume

DARIELLE OLI

Civil Engineering Student • Ateneo de Davao University

0919-286-4582 | darielleoli04@email.com | Davao City, Philippines

OBJECTIVE

Driven Civil Engineering student eager to contribute technical expertise, analytical precision, and a strong problem-solving mindset to real-world engineering projects, surveying operations, and fieldwork initiatives.

EDUCATION

Bachelor of Science in Civil Engineering *Expected Graduation: 2027*
Ateneo de Davao University — Davao City, Philippines

SKILLS

AutoCAD · Microsoft Excel · Data Analysis · Surveying Techniques · Problem Solving

PROJECTS & EXPERIENCE

Route Surveying Laboratory Project

- Executed precise field measurements and systematic data collection to establish accurate route alignment
- Evaluated and validated survey data to ensure measurement accuracy, reliability, and compliance with reporting standards

Curve Design Project

- Implemented compound curve computations utilizing the chord deflection method to solve complex alignment problems
- Engineered precise curve layouts in strict adherence to established engineering design standards

ACHIEVEMENTS

Dean's Lister (2024) — *SO2*
Ateneo de Davao University, Davao City
