

**DARIELLE OLI**

**A 3RD YEAR BS CIVIL  
ENGINEERING STUDENT**

# ABOUT ME!!

The name is Darielle Oli, a 20 years of age, currently resided at Davao City, Davao del Sur, a place that keeps me grounded and motivated. I enjoy staying active through sports and am currently interested in exploring calisthenics as a new way to challenge my strength and discipline. When I'm not moving, I like to slow things down by watching movies and reading, which help me relax and gain new perspectives. I also enjoy cooking, especially trying out new recipes and flavors, as it allows me to be creative and hands-on at the same time. Also, I love to study since I enjoy solving problems related to my course.

# SKILLS

I am skilled in AutoCAD and SketchUp, with the ability to create detailed designs and realistic 3D visualizations. I also bring strong problem-solving, critical thinking, and time management skills to every project, and I am developing an entrepreneurial mindset that combines creativity and hard work to turn ideas into real ventures.

# GOALS

My short-term goal is to graduate and pass the board exam while gaining practical experience in my field, building a strong foundation for a successful professional career.

In the long term, I hope to combine my technical skills and passion for entrepreneurship to open my own cozy café, funded entirely by my own dedication and perseverance, creating a space that reflects my vision and hard work.

# My Motto

I believe in always doing my best in everything I do. Challenges help me grow and become stronger. I value learning from mistakes and improving myself every day. I have a pet dog and cat, the always cheer me up whenever I feel sad or stressed.

**THANK YOU**  
**FOR TAKING YOUR TIME IN**  
**READING MY SELF-INTRODUCTION**
